

Welcome to the Seventh Grade!

We hope you are enjoying your summer break! Be sure to get a lot of rest and relaxation because you will be starting a new adventure in seventh grade before you know it!

The seventh grade team is incredibly excited to start the 2019-2020 school year with students from both Rye and New Castle. We guarantee this is going to be a memorable year of middle school!

This year, you will no longer have social studies and language arts as separate classes. Instead, Mrs. Miller and Mrs. Gilbert will be team teaching a Humanities class. As part of that experience, you will be involved in applying our learning to projects that will impact our school and our community. We are excited about this new opportunity and hope you are as well!

In math, you will transfer many mathematical concepts to real-world activities, and in science, you will use a variety of tools and hands-on approaches to learn and explore more about our world. Because both math and science have units that allow for crossover between the two subjects, Mrs. Friberg and Mr. Bissonnette have many, big project ideas on the horizon for you! This is sure to be a year of out-of-the-box thinking!

In addition to promoting academic progress, we will work with you to implement organizational routines and support social and emotional growth. The team will continue to encourage independent management skills in order to ensure that we are addressing all of your needs as a middle school learner.

Should you have any questions prior to the start of school, please do not hesitate to reach out to any team member. We are looking forward to seeing you for the beginning of a great, new year!

Sincerely

Mrs. Jennifer Miller
7th/8th Grade Humanities
jmiller@sau50.org

Mrs. Anne Gilbert
7th/8th Grade Humanities
agilbert@sau50.org

Mr. River Bissonnette
7th Grade Science
